

GENIALE MR16 TYPE 1 - 5W

Single LED and lens for single beam emission. The warm light and the innovative lens design allow a perfect diffusion and homogeneity of the light beam, making the lamp ideal for both general and accent lighting. The lamp is a perfect replacement for the traditional MR 16 filament lamps. Light intensity stable over time, high performance, durability and energy savings are the main features. Geniale MR 16 is suitable for use in shops, art galleries, museum, public and private premises.
