

E27 DIM-PRO

E27 Dim-Pro Delectra led lamp is an efficient high-quality dimming lamp. Designed by Elettrolab is a 100% proudly made-in-Italy product. The key of this fixture is the dimming that makes the unit stands out from the crowd. The many years of experience in TV studios and theater makes the unit flicker free and phase-dimmable in group where all will execute the same command without steps and without hesitation in the final part of the curve. Available in fade to warm or white LEDs, standard or compact body. The special features make the led lamp usable in any applications. Product's warranty is 2 years for the driver and 5 years for the led engine.
